

Ali Ismoilov

Backend Developer · Node.js / NestJS / TypeScript

rustammuborakmuhammadali@gmail.com | linkedin.com/in/aliismoilov | github.com/muhammadaliismoilov | Tashkent, Uzbekistan

PROFILE

Backend Developer specializing in Node.js with hands-on experience in building RESTful APIs, working with SQL and NoSQL databases, and implementing authentication and authorization. Experienced in mentoring students and collaborating in team-based development environments.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript
Runtime & Frameworks	Node.js, Express.js, NestJS
Databases	PostgreSQL, MongoDB, Redis
ORMs	TypeORM, Drizzle ORM, Sequelize, Mongoose
DevOps & Cloud	Docker, AWS (EC2), Git & GitHub
Auth & API	JWT, REST API, Swagger, Postman
Other	Telegram Bot, Face-api.js

PROFESSIONAL EXPERIENCE

Mentor — Digital Education Development Center (IT PARK)

October 2025 – May 2026 | Shovot, Khorezm Region, Uzbekistan

- Mentored school students in Backend development using Node.js
- Taught core backend technologies: JavaScript, TypeScript, Node.js, Express.js, NestJS
- Introduced students to REST API development and database fundamentals (MongoDB, PostgreSQL)
- Reviewed homework assignments and provided constructive code feedback

Backend Developer Intern — Megasoft | TOTMEGA LLC

August 2025 – November 2025

- Developed efficient and scalable RESTful APIs using Drizzle ORM and PostgreSQL
- Optimized SQL queries, improving database performance and request speed
- Designed and implemented CRUD operations
- Prepared API documentation using Swagger

Teacher Assistant — Najot Ta'lim (Khorezm branch)

June 2025 – August 2025

- Assisted instructors during backend development classes
- Supported students with Node.js, JavaScript, Express.js, and database basics
- Helped students debug code and understand backend logic
- Checked assignments and tracked students' learning progress

PROJECTS

School Management Platform (Backend + Frontend) — Jun 2025 – Present

Backend: github.com/muhammadaliismoilov/school-erp-crm-lms-bi-backend

Frontend: github.com/muhammadaliismoilov/school-erp-crm-lms-bi-frontend

- Production-grade NestJS 11 modular monolith with clear bounded-context boundaries for future service extraction
- JWT auth with refresh-token rotation, Argon2id hashing, wildcard RBAC (students.*, *.*)
- Multilingual API — Uzbek, Russian, English — with Accept-Language support and localized error envelopes
- AES-256-GCM encryption at rest for sensitive data (e.g. psychologist counseling notes)
- Modules: auth, CRM leads, students/parents, attendance, finance, notifications, audit, files
- Phase-2 placeholders: HR, inventory, LMS, analytics, youth services
- Docker Compose (Postgres + Redis + MinIO); strict migration-based schema management
- Next.js 14 (App Router) admin console — TanStack Query, Zustand, React Hook Form
- Custom institutional design system (Tailwind CSS, Fraunces + Schibsted Grotesk typography)
- i18n wired end-to-end: frontend Accept-Language synced with backend localized error messages

Backend: Node.js, TypeScript, NestJS 11, PostgreSQL, TypeORM, Redis, MinIO, Docker, JWT, Argon2id, Swagger

Frontend: Next.js 14, TypeScript, TanStack Query, Zustand, Tailwind CSS, React Hook Form

Education CRM System (Backend) — Beta

github.com/muhammadaliismoilov/education-crm-backend

- Backend system for managing 300–400+ students with automated Face ID-based attendance tracking
- Facial recognition attendance using Face-api.js — students checked in/out via face scan
- Full student, group, and course management with role-based access control
- JWT authentication, Redis caching for performance optimization
- RESTful APIs documented with Swagger; deployed on VPS with Docker

Tech Stack: Node.js, TypeScript, NestJS, PostgreSQL, TypeORM, Redis, Face-api.js, JWT, Docker, Swagger

Market Automation System (Backend) — In Progress

github.com/muhammadaliismoilov/Market

Swagger: 212.8.226.173:4005/api/docs

- Backend development of a food store automation system
- Product & inventory management, sales, payments, expense & profit tracking
- JWT authentication and role-based access control
- PostgreSQL with TypeORM, Redis caching; Dockerized and deployed on VPS

Tech Stack: Node.js, TypeScript, NestJS, PostgreSQL, TypeORM, Redis, Docker, JWT, Swagger

Barbers Management System (Backend) — In Progress

github.com/muhammadaliismoilov/Barbers

- Backend for managing barbershops, staff, and customer appointments
- Daily revenue, expenses, and customer statistics tracking
- Search barbers and locations, profile management
- JWT authentication and role-based permissions with PostgreSQL and TypeORM

Tech Stack: Node.js, TypeScript, NestJS, PostgreSQL, TypeORM, JWT

LICENSES & CERTIFICATIONS

- Backend Development (Node.js) — Najot Ta'lim, July 2025
- JavaScript Algorithms and Data Structures — freeCodeCamp (freecodecamp.org/certification/ali-ismoilov/javascript-v9)

EDUCATION

Tashkent Institute of Irrigation and Agricultural Mechanization Engineers

National Research University — Tashkent, Uzbekistan

Bachelor's Degree in Agricultural Mechanization | September 2020 – June 2025

Najot Ta'lim

Backend Development (Node.js) | November 2024 – June 2025
